LAMELIO

WALL PANELS

DISCOVER A NEW FACE FOR YOUR WALLS

With our Lamelio panels you can change your interior in a very simple way and make it unique.

Assembly is very quick and easy and the result will be enjoyed for many years. Simply cut the panels to the desired length and glue them to the wall.

Lamelio wall panels are made from polystyrene and are 80% recyclable, making environmentally friendly.

The modern material is waterproof, so you can successfully use them not only in the living room or bedroom, but also in the bathroom, spa or other rooms exposed to moisture.

The three-dimensional character of the lamellas panels mix with interesting colors allow for interior decoration according to the latest trends. The lightweight material makes it easy to fix to walls and ceilings. The paneled wall offers acoustic benefits.

Choose one from our collections and let us discover the new face of your walls!

COLLECTION
ASTI

SLIM LINE

Asti collection is characterized by its slim line. Due to the fine cross-section of the Asti series, you will give your wall an unusual lightness and modern character. The panel brings subtle perception and is often used in smaller rooms.

The collection is available in three colors, so the panels from this series can be easily adapted to interiors in warm and cool colors.

TIMELESS SHAPE

The Vasco collection is most often chosen by our customers due to the exceptional thickness of individual panel strips. The Vasco series is a form of simplicity that greatly facilitates interior design. These lamellas fit within most arrangements. The panels are available in three wood shades. Due to the clear three-dimensional nature, they are very often mounted not only on the walls, but also on the ceiling, which perfectly delineates the zones in the room.

SEE OUR ADVANTAGES

High strength

Wooden texture

Lightness of the material

Abrasion resistance

Soundproofing properties

High water resistance

Environmentally friendly product

Easy to assemble

ASSEMBLY OF LAMELLAS

1 Prepare the surface on which the panels will be mounted. Installation on plastered walls, gypsum boards or wood-based materials is possible. If the wall is covered with wallpaper, we recommend that you disassemble it.

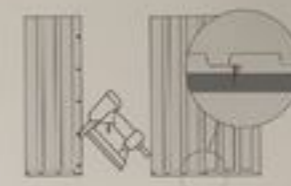

2 Use a circular saw or jigsaw to cut the panels to the correct length or width.

3 Apply mounting adhesive to the back of the panels.

4 The panels can be installed vertically or horizontally. In addition to the mounting glue, you can additionally use a stapler to attach the panels to the wall. Apply the staples to the edge of the panels' tongue, making them invisible.

5 When joining panels on the corner of the wall, groove the panels together.

6 You can use end strips to complete the finish look.
